The Summing Up.

And Study, summing up. Mr. Rocketeller tells us that "the only thing which
is of lasting benefit to a man is that
which he does for himself. Money
which comes to him without effort on
his part is seldom a benefit and often a
curse. That is the principal objection
to speculation—it is not because more
less than rain, though that is true—but
it is because those who gain are apt to
roceive more injury from their success
than they would have received from
failure. And so with regard to money
or other things which are given by one
person to another. It is only in the exceptional case that the receiver is really
benefited. Fy if we can help people to
help themsel as then there is a permament blessing conferred.
